

Free Computer Recycling

At **CLR Solutions** we offer **recycling** of all **computers** and **electronics** free of charge and in most cases will pick them up at your location. We offer a free drop off location for single/small items. Call or email us to set up an appointment for us to come and pick up your unwanted **computers** and **electronics**. There is no amount of **computers** or **electronics** too big or small. We provide our services to the public as well as small through large businesses and non-profit groups. We help you go green with minimal effort while having a big positive impact on the environment.

We will travel anywhere in Northern New Jersey and parts of the tri-state area to pick up bulk amounts of computers and electronics. If the quantity is large enough then we will supply enclosed trailers or large box trucks. If any of the systems or electronics can be re-used then they are donated to schools. If so, there are tax breaks available for you or your company.

Our process begins by disassembling all electronics and separating the many parts. If it is a computer and the person or company that we got it from wanted the hard drive shredded then we send them off to be shredded by a third party partner. Once all the parts are separated they are tested to see if they are salvageable for re use. If they are not, then they are sent to be broken down. If any components are salvageable then they are used to create a working computer or fixed to be donated to non-profits or resold by us.

The many different types of items we **recycle** include:

- **Computers**
- **Servers**
- **Monitors***
- **Printers**
- **Cell Phones**
- **Laptops**
- **Routers/Switches**
- **Stereos**
- **Televisions***
- **All Types Of Cables/ Electronics**

There is a recycling fee for CRT Monitors and Tube Televisions
